## DETAILED ACTION

### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-10 and 15, drawn to polynucleotides and means of expression, classified in class 435, subclasses 69.1, 320.1, and 325, and class 536, subclass 23.5.
- II. Claims 11-14, <sup>and 16</sup> drawn to polypeptides, classified in class 530, subclass 350.
- III. Claims 17 and 18, drawn to antibodies, classified in class 530, subclass 387.9

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, and III are unrelated, each to the other. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions differ structurally and functionally and cannot be used together or interchangeably. The polynucleotides of Invention I are composed of nucleic acids, unlike the proteins of Inventions II and III, and have different functions from the proteins. The polypeptides of Invention II are unrelated in structure to the antibodies of Invention III and the two groups have different functions.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 1646

Because these inventions are distinct for the reasons given above and the searches required for the different groups are different, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Janet L. Andres whose telephone number is 571-272-0867. The examiner can normally be reached on Monday, Tuesday, Thursday, Friday, 8:00-4:30.
